Men of the State of California Are Strong for Taft.

WASHINGTON, May 15.—In the primary election in California yesterday the railroad men of the state voted for President Taft. Several days before the primary election a delegation of railroad men visited the Taft headquarters in San Francisco and assured him of their support because of his friendliness to the employers' liability bill, which passed the Senate several days ago. They referred to the measures as "the first adequate and honest liability law that has ever been proposed." In their statement made at the Taft headquarters they said: "We do not care so much about the tariff or the record of candidates on destruction of the trusts, but we do know that William Howard Taft fought the most powerful influences in the United States to give the railroad workers of the country the first real liability law that has ever been upon the statute books of the United States."
